RECYCLED MATERIALS...

A RESPONSIBLE & SUSTAINABLE CHOICE...

Promotional gifts made of recycled materials are ideal for customers with environmental awareness. There can be minor variations in the colour hue and small impurities in recycled material. In our opinion, these small variations only help to emphasize that the material is recycled. In general, our recycled materials are nice and clear - in fact, on many products, we can hardly tell the difference between standard and recycled material.

Werbegeschenke aus recycelten Materialien sind ideal für umweltbewusste Kunden. Bei recycelten Material kann es geringfügige Abweichungen im Farbton und kleine Verunreinigungen geben. Diese kleinen Abweichungen unterstreichen unserer Meinung nach nur die Tatsache, daß das Material recycelt ist. Im Allgemeinen ist unser Recyclingmaterial schön und klar - bei vielen Produkten können wir kaum einen Unterschied zwischen Standard- und Recyclingmaterial feststellen.

Un article promotionnel en matériaux recyclés est idéal pour les clients soucieux de l'environnement. Il peut y avoir de légères variations dans la teinte ainsi que de petites impuretés dans le matériau. À notre avis, ces variations ne font que souligner que le matériau est recyclé. En général, nos matériaux recyclés sont très agréables et clairs. En fait, on peut à peine voir la différence entre le matériel standard et recyclé.

En reklamegave fremstillet af recycled materiale er ideel for miljøbevidste kunder. Der kan forekomme små variationer i farvetonen samt små urenheder/partikler i materialet. Efter vores mening er disse små variationer dog kun med til at fremhæve, at materialet er recycled. Generelt er vores recycled materialer flot og klart - på mange produkter kan vi næsten ikke se forskellen mellem standard og recycled materiale.
